

ENVIRONMENTAL POLICY

COMETAL, S.L. is a company dedicated to the design, manufacture and marketing of sprinklers, hydraulic valves, connectors and accessories, mainly for irrigation.

This document is the starting point to achieve certified environmental management. And with it, we want to record our commitment to the rational use of natural resources and the protection of ecosystems in the design and development of our economic activity.

Commitment, which we consider essential with the planet itself, and future generations.

This is materialized in:

- ✓ IDENTIFY and EVALUATE all environmental aspects derived from our activities, in order to implement measures to minimize impacts, prevent pollution, reduce resource consumption and promote efficiency and energy savings in our facilities.
- ✓ Comply with current environmental legislation.
- ✓ Prevent and reduce pollution and waste generation.
- ✓ Review and carry out a continuous improvement of it according to our possibilities.
- ✓ Train, communicate and educate workers in the practice of environmental saving.
